PROJECTS

Gratis

An app that lists only the free games from both the Steam and GOG online stores.

[Github](#) [Live Site](#)

- App built using React and Javascript for the frontend with Rails in the backend
- Dynamically sources data from multiple APIs to collect free games for the user
- A fun and inviting retro design

Streetweary

A mock clothing store website focused on streetwear fashion. Has the full functionality expected from an online store.

[Github](#) [Live Site](#)

- Made using React, Node.js, and PostgreSQL
- Allows creation of accounts, adding items to cart, checking out, and more
- A light, simple, and modern design

ReddArt

An app that uses the Reddit API to dynamically pull top posts from various art-related subreddits and present them to the user.

[Github](#) [Live Site](#)

- Made using React, HTML, and CSS
- Switch between art interests quickly with the handy sidebar
- Striking and colorful design

WORK HISTORY

- **IT Career Switch**

Fullstack Developer Trainee, 2022-Present

During the traineeship I had to demonstrate a competent level of programming skills.

- **Freelance**

Software Engineer, 2020-2021

Programming on an ad-hoc basis.

- **Duke's Head, Highgate, London, UK**

Bartender, 2019

Served and made drinks at a hip pub in Highgate. On busy days, served around 40 customers. Worked in a team of two.

- **Nag's Head, Reading, UK**

Bartender, 2017-2018

Worked front of house, serving up to 80 customers on a busy night, in teams of 2 or 3. Required good social skills as well the ability to handle pressure.

- **City of Edina, Edina, Minnesota, US**

City Seasonal Worker, 2011

Provided support to permanent employees for 6-10 city-wide callouts a day, to solve a variety of waterworks problems. Required fast learning and problem solving skills.

- **Davanni's, Coon Rapids, Minnesota, US**

Pizza Delivery Driver, 2010

Delivered pizza by car to 10-15 customers a day, sometimes assisting the other employees with making food.
